Fund targeting sustainable investment activities

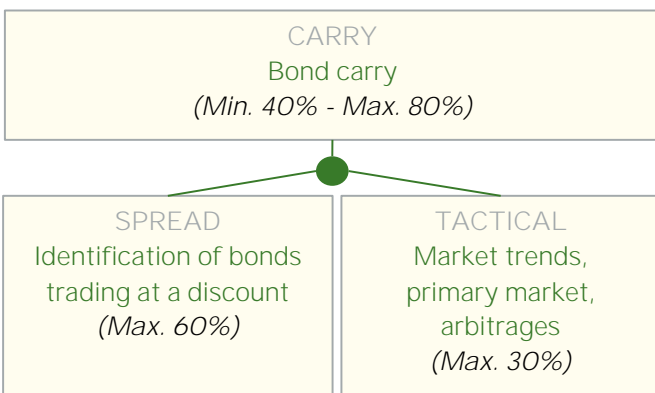

Active and conviction management for corporate bonds

Corporate bonds offer historically high return prospects in this volatile market environment. Anaxis Income Advantage aims to invest in the most attractive bonds globally, with fund managers weighting exposure by country, sector, duration and credit rating based on the available opportunities and their view on markets.

Fund strategy

- The investment universe consists of corporate bonds with various credit ratings.
- Active management reflects our macroeconomic research and relative value analysis, with no benchmark restrictions.
- Bond selection is primarily based on in-depth fundamental research for each issuer.
- Our rigorous sustainable development policy reduces risk and is based on an ethical approach.
- Focus on issuers offering good visibility with a given credit rating, preference for less cyclical sectors.

Three complementary performance drivers

- The portfolio's allocations across these three sources of complementary performance change over time on the basis of market opportunities and the expectations of our managers.

Anaxis, specialist in corporate bonds

- History of 15+ years of performing and resilient investment solutions.
- 5 people team dedicated to corporate bonds.
- Committed corporate bonds expert with a management approach based on:
 - Rigorous credit research on each bond
 - Conviction management without reference to a benchmark index
 - Reduction of exogenous risk that cannot be controlled
 - Good diversification at all times

A strict and ambitious ESG approach

- Our commitments include protection of the environment and biodiversity, the preservation of water resources, a contribution to ecological transition, an improvement in population health outcomes, and respect for universal ethical standards.
- Our portfolios adhere to the trajectory set out in the Paris Agreement, limiting global warming to 1.5 °C.
- We aim for carbon neutrality in the portfolios by 2050, with a reduction in their carbon intensity of 7.5% per year between 2018 and 2028.
- We exclude the most harmful sectors on the basis of four criteria: greenhouse gases, pollution, healthcare and ethics.
- We avoid indirect financing of the activities of authoritarian governments through bonds issued by state-owned companies in these countries.
