Fund targeting sustainable investment activities

Seeking yield and visibility

In a context of uncertainty regarding the evolution of growth, inflation, interest rates, and equity markets, Diversified Bond Opp. 2029 offers attractive yield opportunities on corporate bonds for investors willing to accept the inherent risks of this credit segment over an investment period ending on December 31, 2029.

Fund Strategy

- Broad investment universe that comprises bonds with principal repayment around 31 December 2029 (fixed-term maturity fund).
- Corporate bonds with various credit ratings, for which selection relies first and foremost on in-depth fundamental analysis of each issuer.
- Risk monitoring and active carry management, with managers making bond arbitrages throughout the fund's lifecycle to improve the risk-return profile while sticking to the target maturity.
- Strong sustainable development policy, which also helps reduce risks.
- Preference for issuers offering good visibility for a given credit rating and for less cyclical sectors. No investment in the financial sector.

A strict and ambitious ESG approach

- Our commitments include protection of the environment and biodiversity, the preservation of water resources, a contribution to ecological transition, an improvement in population health outcomes, and respect for universal ethical standards.
- Our portfolios adhere to the trajectory set out in the Paris Agreement. We aim for carbon neutrality in the portfolios by 2050, with a reduction in their carbon intensity of 60% between 2018 and 2028.
- We exclude the most harmful sectors on the basis of four criteria: greenhouse gases, pollution, healthcare and ethics.
- We avoid indirect financing of the activities of authoritarian governments through bonds issued by state-owned companies in these countries.

Anaxis, pioneer and leader in fixed-term maturity funds

- History of 15+ years of performing and resilient investment solutions.
- 5 people team dedicated to corporate bonds.
- Pioneer in fixed-maturity funds and firm believer in the advantages of these funds:
 - Diversification
 - Thorough credit analysis of each bond
 - Visibility as credit and rate risks decrease over time

Allocation of the portfolio

Current Yields

Advantages of the fund

- Attractive yield and active bond management.
- Robust management through the quality of selection, a preference for sectors considered less cyclical by managers and the diversification.
- Good visibility thanks to the convergence effect, the risk profile reduces as the maturity approaches.
- Daily liquidity for subscriptions and redemptions.
- A wide choice of share classes, EUR, USD or CHF (exchange rate hedged) and accumulating or distributing.

Characteristics of the fund

Auditor	PricewaterhouseCoopers Audit
AMF approval number	GP-10000030
AUM	139 million EUR

Main risks

- Risk of capital loss.
- Credit risk. This is the potential risk that the issuer's rating be downgraded which may lead to a decrease in the price of the security and thus the fund's net asset value. Furthermore, subscribers should note that investments in low-rated or unrated securities generate higher credit risk.
- Interest rate risk.
