EU Bond Opp. 2027

Monthly report - European Corporate Bond Fund

September 2026

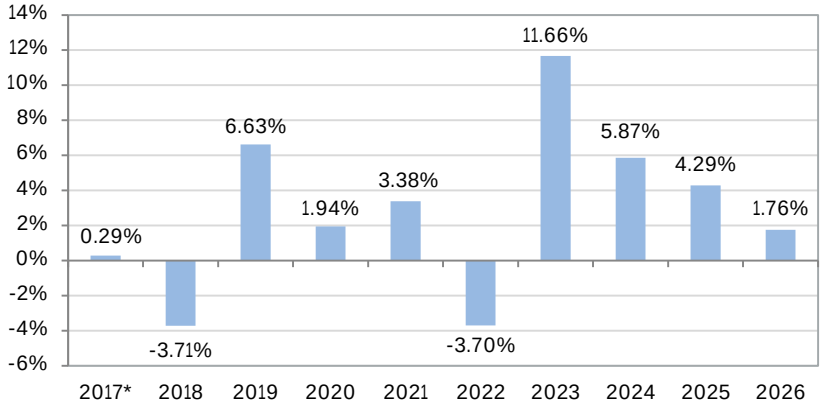

Building a serene future

This fund targets at its 31st December 2027 maturity an annualised performance after fees above that of the performance of the German federal bond with maturity 15/11/2027 (I1 units - EUR). The investment strategy is based first and foremost on an extensive fundamental analysis of private-sector bonds including consideration of ESG criteria. The investment strategy aims to build a robust and diversified allocation based on the selection of individual bonds each for their own merits. The fund is actively managed but does not seek to capture short-term market trends.

The investment objective is conditional upon investment in companies which stand out for their active approach to sustainable development and their commitment to putting in place policies that are compatible with the issues at stake in climate-related and environmental regulation. The investment management activity aims to contribute significantly to the efforts required to achieve the long-term global warming objectives of the Paris Agreement. To this end, Anaxis targets a reduction in carbon intensity of the portfolio by 60% between 2018 and 2028.

Performance 30/09/2026	I1 (EUR)	I2 (EUR)	J1 (USD)	K1 (CHF)	E1 (EUR)	E2 (EUR)	U1 (USD)	S1 (CHF)

Article 9

Fund targeting sustainable investment activities

Monthly Comment

US and European credit had their worst month of 2026, as a global rates sell-off overwhelmed contained spread moves in IG and triggered a late-month risk-off mode in HY. In the US, the Fed raised rates 25bp to 3.75-4.00% - its first hike since 2023 - citing persistent above-target inflation and Middle East tensions, and signaled one more hike likely by year-end. The 5Y Treasury surged 53bp on the hawkish shift. IG spreads barely moved (+1bp to 80bp), with technicals holding firm even as rates moved violently. HY was more fragile: spreads widened +46bp to 311bp, stable through mid-month before a sharp leg wider from September 22 as the rates sell-off and post-Labor Day issuance indigestion triggered capitulation. In Europe, the ECB hiked its deposit rate 25bp to 2.50%, its second increase of 2026, also citing inflationary pressure from the Middle East conflict. A smaller rates move (5Y Bund +27bp) cushioned the damage. IG spreads widened +15bp to 109bp, following a more moderate trajectory than HY spreads. HY spreads widened +41bp to 321bp, with a volatile path - an initial widening, a mid-month dip toward 287bp, then a sharp final-week reversal back to highs - as record HY issuance compounded the ECB's hawkish stance amid the broader global bond rout. The European Bond Opp 2027 fund is down -0.36% in September (I1 class).

The fund benefited from several early-redemption proceeds (Boels Topholding, a BIDS Inter GA call, Teva Pharmaceutical, and a Zonc Bidco call), redeployed into Brightstar, LKQ Euro Holding (auto parts), Merlin Entertainments (entertainment & lodging), UPCB Finance (telecommunications), Voitec, and IHO Verwaltungs (auto parts). The fund also rotated its ZF exposure, adding a new ZF Finance 2028 position alongside Galaxy Bidco while trimming an existing ZF Finance holding. The Investment Grade bucket significantly outperformed the High Yield bucket. Technology and Real Estate were the best-performing sectors, while Basic Materials was a significant outlier on the downside, alongside Utilities.

Building a serene future

Our ESG commitments

- Protecting the environment and biodiversity, with a particular focus on aquatic ecosystems
- Preservation of water resources
- Contribution to the transition to a carbon-neutral economy
- Improve people's health
- Compliance with universal ethical standards: human rights and UN Global Compact

Our ESG objectives

Alignment with the Paris Agreement to limit global warming:

- Carbon neutrality of portfolios by 2050
- Emission intensity reduction by 60% between 2018 and 2028

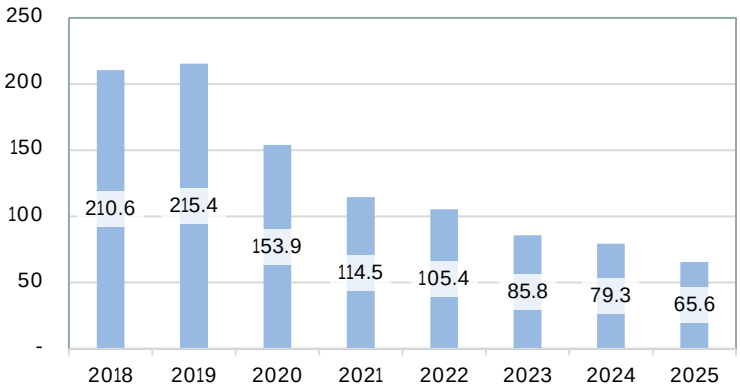

Exclusion of the most harmful sectors with a policy based on 4 pillars:

- Greenhouse gas
- Pollution
- Health
- Ethics

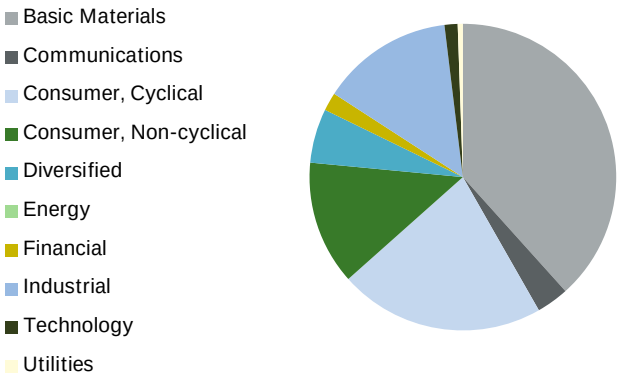

Concrete results for portfolio decarbonization

GHG Intensity

t of CO2 equiv. per EUR 1 million of turnover

Sector Contributions to GHG Intensity

September 2026

Fund GHG intensity	57.40
t of CO2 equiv. per EUR 1 million of turnover	
Fund GHG intensity reduction	-73%
compared to the reference date at the end of 2018	

Net Zero share (carbon neutral)	9%
Share of issuers publishing emissions	79%

Strict environmental exclusions in portfolio

Share of coal	0%
Share of non-conventional fossil fuels	0%
Share of other fossil fuels	0%
Share in the development of fossil fuel projects	0%
Share of agricultural chemicals	0%
Share of tobacco	0%
Exposure to controversial weapons	0%
Exposure to conventional weapons	0%

Exclusion Thresholds

Fossil fuels: 5% of turnover / 10 million tons of coal extraction / 5 gigawatts in coal-fired power stations

Tobacco: 5% of turnover

Weapons: 10% of turnover

Controversial weapons: no tolerance

Other exclusions: 20% of turnover
